Disability

DFAT strongly encourages applications from people with disability who are otherwise eligible for a Scholarship. Under the Disability Discrimination Act, Australian education institutions have to provide 'reasonable adjustments' to students with disability to assist access to study. To assess the likely support needs, appropriate assistance, and the capacity of relevant institutions to provide the assistance, awardees with a disability/special need must provide details of the disability and/or special need when they accept their offer. This information is bound by Australian privacy laws and will be disclosed only for the purpose of facilitating an accessible barrier-free learning environment.

Modifications to physical or learning environments, including additional educational supports such as sign interpreters and captioning, may be available depending on the relevant Institution's capacity. DFAT will advise the Institution of any special requirements associated with an Awardee so that the Institution can pass these details to the Institution's Disability Liaison Officer prior to the Awardee arriving on-campus. Where an Institution is not able to provide the assistance requested, other Institutions may be recommended.

Do you identify as having a disability or do you work in a disability-focused organisation
