

Australia Awards in Indonesia Short Course

Mainstreaming Disaster Risk Management into Annual National and Sub-National Planning and Budgeting

The participants of Mainstreaming Disaster Risk Management into Annual National and Sub-National Planning and Budgeting with the Griffith University delivery team

The Mainstreaming Disaster Risk Management (DRM) into Annual National and Sub-National Planning and Budgeting short course complemented the work of DFAT's DRM program (SIAP SIAGA) aiming to improve Indonesia's ability to prevent, prepare for, respond to, and recover from rapid and slow onset disasters, and to strengthen cooperation between Australia and Indonesia on humanitarian issues in the region.

The course was delivered by Griffith University's Course Leader Mr Iain MacKenzie, *Co-Leader* Dr Febi Dwirahmadi, mentors Professor Cheryl Desha and Mr Greg Hallam and a range of specialist guests speakers, enabling cross country linkages between Australia and Indonesia through the course.

The 25 course participants came from the central government (15); local governments (8); and CSOs (2). The ministries included Bappenas; Indonesian National Board for Disaster Management (BNPB); Ministry of Finance; Ministry of Home Affairs; and Ministry of Social Affairs. The group was joined by Embassy Liaison Officer from the Australian Department of Foreign Affairs and Trade.

Course Schedule

- Pre-Course workshop in Jakarta on 9 – 11 August 2022
- In-Australia program in Brisbane and Canberra on 3 – 25 September 2022
- Post-Course workshop in Lombok on 24 – 26 January 2023

Site Visits

Site visits included:

- Kedron Disaster Coordination Centre
- Australian Strategic Policy Institute
- Mt Ainslie and surrounds
- Binna Burra and surrounds
- Gold Coast City Council Disaster Management facility
- Brisbane Convention & Exhibition Centre

Participant Projects

Course participants applied course learnings in their work by developing and implementing Award Projects. These projects were continuously reviewed and discussed with their group mentor. Projects included:

- Action Plan for Minimum Service Standards for Disaster Sub-Division
- Reflection on the Implementation of Disaster Management Programs Through Foreign Grant Financing
- Village Facilitators and Volunteers Capacity Building for DRM Mainstreaming in Tourism Village Masterplan Kabupaten Pacitan
- Making DRM successful: the proposal of financial arrangement for DRM in Indonesia

Pre-Course Workshops

Course Leaders joined participants for the 3-day pre-course workshop in Jakarta. Participants were introduced to the course, attended workshop sessions, and presented their Award Project plans.

Participants networking with DRM experts at a networking event in Brisbane.

Participants taking a tour of the Kedron Disaster Coordination Centre.

Post-Course Workshops

Participants and course leaders came back together in Lombok, Indonesia, for the post-course workshop. The workshop summarised the learnings from the course and gave participants an opportunity to make their final project presentations to the course leaders. The Team Leader of SIAP SIAGA joined the workshop and DFAT Minister-Counsellor delivered remarks online.

Testimonies

"I got new friends from different backgrounds. I also link to new people and institutions that potentially will become partners. From the knowledge I have learned, from the experiences I have gained from the new networks. I have opportunity to improve my activities, my works, and develop various initiatives to strengthen disaster seeding efforts in Indonesia."

M. Ali Yusuf

Participant of Australia Awards Indonesia - Short Course Mainstreaming Disaster Risk Management into Annual National and Sub-National Planning and Budgeting
