

# Australia Awards in Indonesia Short Course Public Transport Management in Metropolitan Areas

*The participants of Public Transport Management in Metropolitan Areas – a course focusing on upskilling government counterparts to improve urban mobility outcomes through Transit Oriented Development (TOD)*

The Public Transport Management in Metropolitan Areas Short Course complemented the Indonesia-Australia Partnership for Infrastructure (KIAT) program, the program focused on upskilling government counterparts to improve urban mobility outcomes through Transit Oriented Development (TOD) which promotes the use of public transport systems.

The course also supported the preparation of Sustainable Urban Mobility Plans for DKI Jakarta and the metropolitan areas of Kedungsepur, Mamminasata and Sarbagita along with Bogor City, Depok City, Tangerang City and Bekasi City.

The program comprised of four modules covering urban transport planning and management, stakeholder management, technology and innovation and transport Infrastructure financing and development.

A team of experts including course leaders The Honourable Paul Lucas, Professor Matthew Burke, Adjunct Professor Bruce James and Dr Kelly Bertolaccini, worked progressively through this content, providing presentations from industry, site visits, networking events and mentoring to participants.

## Course Highlights

- Pre-Course workshop 5–7 July 2022
- In-Australia program 28 August – 9 September 2022
- Post-Course workshop 29 November – 1 December 2022

## Session Highlights and Site Visits

As part of the course, participants visited various public transport facilities across Brisbane, Gold Coast and Sydney. Highlights included:

- Sydney Metro
- Sydney Ferries
- G:Link Headquarters
- Kinetic bus depot
- Cross River Rail

## Participant Projects

Course participants were required to prepare Award Projects to help them apply the course learning into their work. These projects were continuously reviewed and discussed with the group mentors throughout the course. Projects included:

- Integrated Design as Part of Transit Oriented Development Planning at Jurangmangu Station
- Assessment Tool of Transport Infrastructure Project Investment for Central Budget Office
- Initiating Public Transport Database Management System Framework as a Policy Tool to Improve Public Transport Services

## Pre-Course Workshop

The Honourable Paul Lucas and Dr Kelly Bertolaccini joined participants in Bogor, Indonesia for a 3-day pre-course workshop. The workshop introduced the participants to the course themes, participant projects and pre-departure preparation for the Australian component of the course.

*Participants taking a guided tour of Central Station by Sydney Metro.*

*Participants presented their projects for review by course leaders at Queensland Parliament House.*

## Post-Course Workshop

Participants and course leaders came back together in Sentul, West Java, Indonesia, for the post-course workshop. The post-course summarised the learnings from the course and gave participants an opportunity to present their implemented projects to the course peers and course leaders.

## Testimonial

*"It's been an eye-opening experience to learn and look at the policies taken and their implementation along with institutional, funding & financing aspects, including accommodating GEDSI. This course would be a lesson learned for preparing the next urban transport planning policies in Indonesia."*

## Lucky Mutiara

**Transportation Planner, National Development Planning Agency and Participant of the Australia Awards Public Transport Management in Metropolitan Areas Short Course**
